

SO COMFORTABLE AND VERSATILE, YOU'LL NEVER SIT ON ANYTHING ELSE AGAIN.

Introducing the awesome Garbolino Super G-Seat Box. A revolutionary design, built around the words 'a pleasure to use'. The new moulded, rotating, height adjustable seat is formed like a comfortable chair. After all, whether it's the office, car or aeroplane all seats that are meant to be used for long periods of time are shaped. This helps provide greater back posture, especially whilst pole fishing over a long session. All locking mechanisms from the legs to the G-Station Accessories incorporate Garbolino's new 'G-Clamp' cam lock system - making adjustments quick, simple and safe. The impact-resistant stacking system has 30mm, 60mm, 90mm and 120mm depth options with a choice of winder fixing or dividers. Plus quick release locking lets you access the tray with one hand. An optional side footplate enhances the swivel seat even further. And if all that isn't enough, the Super G-Seat Box incorporates a trolley system. Quick and easy to use, the wheels clamp directly onto the base of the chassis and the trolley arm utilizes the spray bar support system (available as part of the deluxe package or as an optional extra). The Garbolino Super G Seat Box - so comfy you'll feel at home in an instant.
